PSC APPROVES ADDENDUM TO WATER TERRITORIAL AGREEMENT

JEFFERSON CITY—The Missouri Public Service Commission has approved an addendum to a water territorial agreement between the City of Union and Public Water Supply District No. 1 of Franklin County which addresses the provider of service to a four parcels of land near Union.

The land is currently in the water district's service territory under a territorial agreement originally approved by the Commission in March of 2003. That agreement established the boundaries for each provider in Franklin County near Union.

The City of Union and Public Water Supply District No. 1 of Franklin County stated that in order for those parcels of land to receive water service from the public water supply district, the district would have to install new facilities at considerable cost. The City, on the other hand, has facilities located near the parcels and owners of the land had requested the City of Union provide service.

Based on a review of the information filed in this case, the Commission has concluded that the addendum to the territorial agreement is not detrimental to the public interest and should be approved.

The Commission's order takes effect on December 17, 2006.
